

TengeFlow

Personal expense tracking
for everyday life in Kazakhstan.

Know where your money goes.

Pinigin Artyom / BDA-2602

Information and Communication Technologies
Midterm Project / Topic 35

The problem

Small purchases add up.

Students pay by card and cash, but often lose track of total monthly spending.

How much can I still spend?

Who is it for?

Students and young adults in Kazakhstan.

What do they need?

A quick way to record expenses and check the remaining budget.

Key features

Account setup

Register and set a budget.

Expense entry

Record card and cash purchases.

Transaction history

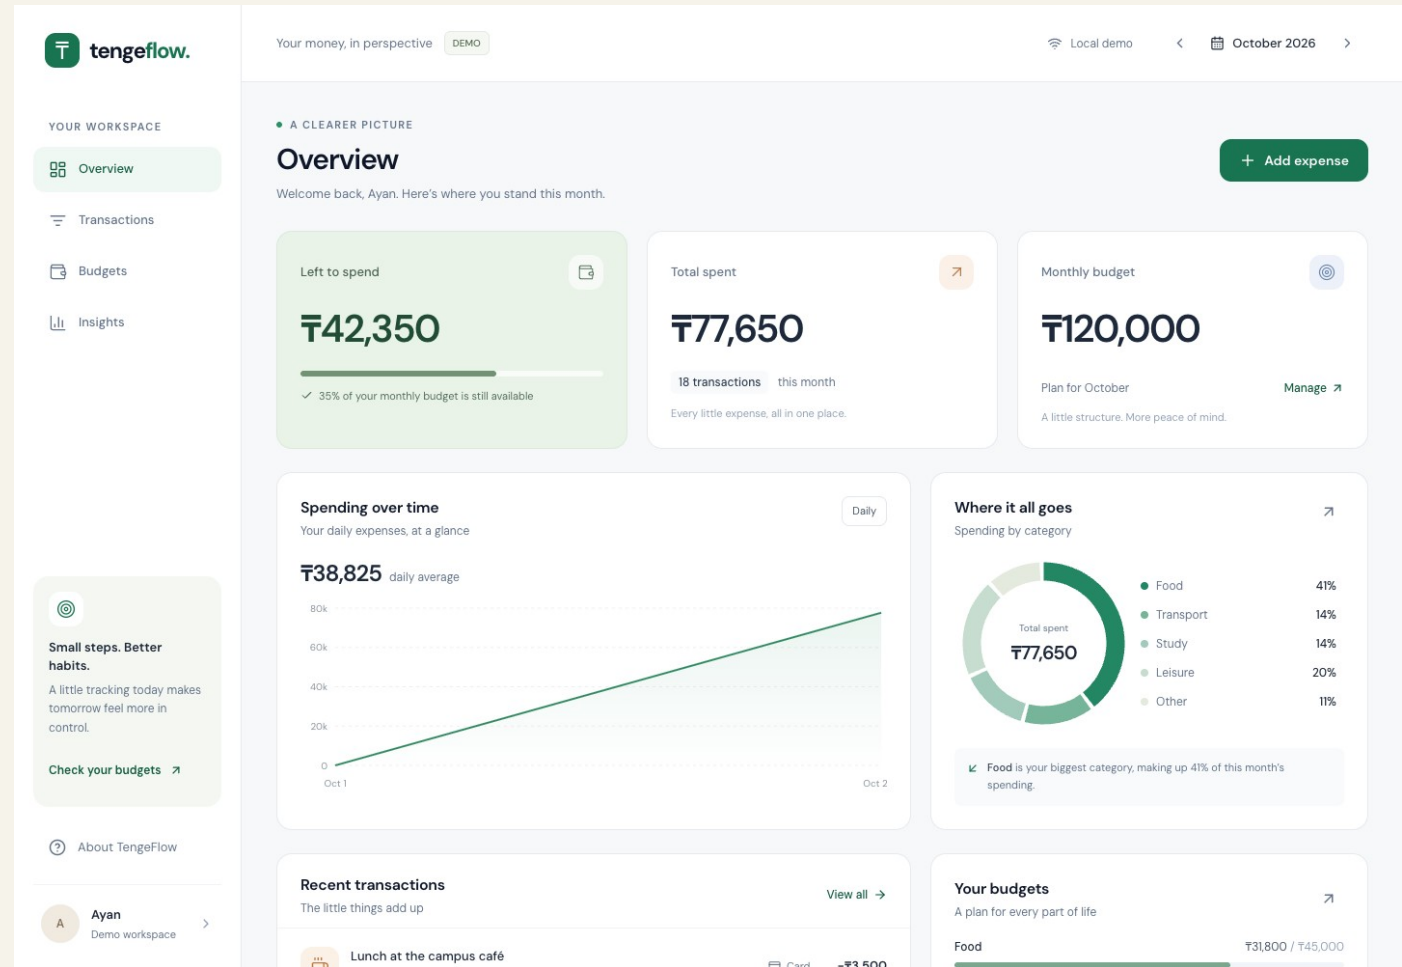

Search, filter and edit expenses.

Budget limits

Plan total and category spending.

Spending insights

See category totals and trends.

Actual interface with fictional demo data.

Stack and responsive design

Frontend

React + TypeScript (Create React App)

Tailwind CSS + Zustand

Backend

Flask + SQLAlchemy / SQLite locally

Responsive web app

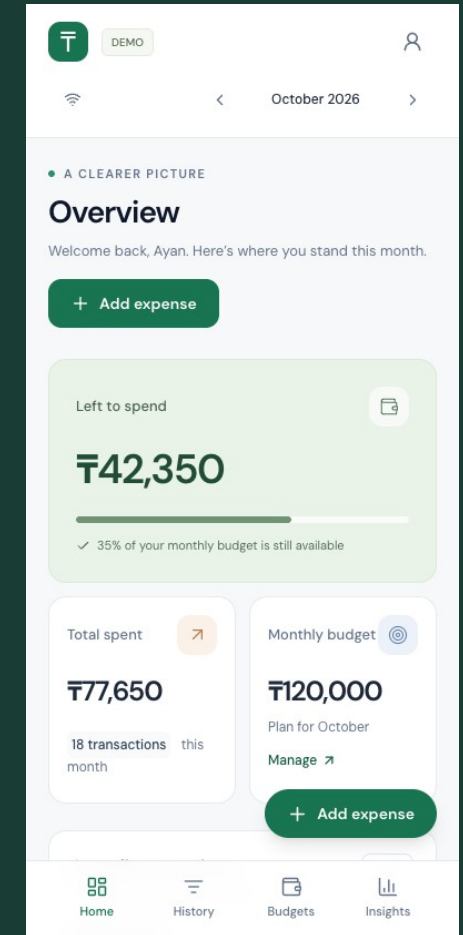

Desktop, tablet and phone layouts.
Touch controls and mobile navigation.
